PRIVATE CONSULTING

Support to the Accounting and Management of Your Company.

Management

We provide personalized support to the management of your company, not only to boost your business but also to build new projects.

Human Resources

We support the recruitment and selection of candidates, the verification of employment incentives, the processing of wages and the management of vacations and schedules.

Intern Control

Intern Control is, more and more, important for the companies, as it aims to contribute with more management efficiency.

Community Funds

We help in the management and monitoring of the entire process and in the assessment of the framework and value of investment projects to which they can apply.

SNC

Accounting should serve as an additional control over the economic life of your company, as we can help to keep accounts under control and facilitate your decision-making.

Immobilized

Its proper accounting, depreciation, amortization, inventory and even slaughter require a set of specific procedures, all of which are a reality that we can help with.

Planning and Preparation of Tax Obligations

We assist your company in several aspects, namely in VAT, IRS, IRC, Social Security, Stamp Duty, E-invoice, SAFT-PT, Model 22, IES, payments on account.
